PAINTING INSTRUCTIONS

Background clipboard: Base the clipboard with Lamp Black. You can roll your base coat for a more uniform and speedy coverage. Let dry.

Undercoat: Position your stencil on the clipboard. Since this design is on a black background, we are going to stencil the first coat with a light color so it will not take as many coats of the base colors and the base colors will be more vibrant. Stencil the center of the flowers, stem, and leaves with Sand. Let dry. Position the petals over the center of the flowers. Stencil the petals with Sand.

Petals:

Position the stencil over the petals and stencil with the petals with Spicy Mustard. Shade the petals with Burnt Sienna. Highlight the petals with a brush mix of Spicy Mustard and Light Buttermilk.

Centers:

Position the stencil over the center of the flowers. Stencil with Burnt Orange. Shade along the bottoms of the centers with Russet. Highlight along the tops of the centers with Tangerine. Dot the centers onto the petals with Light Buttermilk.

Stems & leaves:

Position the stencil over the stems and leaves. Stencil with Light Avocado. Shade along the bottom of the leaves with a brush mix of Light Avocado and Black Green. Highlight along the tops of the leaves with a brush mix of Marigold.

Checks:

Position the stencil and stencil the checks with Sand. Dot the centers with Lamp Black

Base:

Base the top with Oxblood. Shade around the edges with Russet. Paint the edges with Lamp Black. Center the word Autumn from the "Seasons Stencil" and stencil with Sand. Spatter the base with Lamp Black.

FINISHING

Spray with several coats of DecoArt Matte Spray Finisher/Sealer.
